

Darlington Upgrade Project

Main South Road and Sturt Road Access Changes 18 to 21 December 2020

As part of the Darlington Upgrade Project, works will be undertaken on Main South Road and Sturt Road to install the final layer of asphalt and line marking between Sutton Road to Flinders Drive, weather permitting.

Please see times, closures and traffic management listed below.

8pm Friday, 18 December – 6am Monday, 21 December

Main South Road, southbound

The southbound lanes of Main South Road between Sutton Road and Flinders Drive will be reduced to one lane with intermittent detours via either Sturt Road or Flinders Drive.

Sturt Road, westbound

The westbound lanes of Sturt Road will be closed between University Drive and Main South Road, with detours via University Drive, Flinders Drive and Main South Road or via Shepherds Hill Road.

Sturt Road, eastbound

The eastbound lanes of Sturt Road will be reduced to one lane with intermittent detours via Main South Road across the Mimosa Terrace bridge.

To ensure the safety of all road users, speed and lane restrictions will remain in place outside of the hours of works.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to local residents as much as possible.

Once the works are complete, speed restrictions will remain in place along the newly resurfaced section for approximately six weeks, to enable excess bitumen to be worn to a safe level prior to the posted speed limit being reinstated, weather permitting.

Please plan ahead and allow extra travel time, and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.
