

North-South Corridor

Northern Connector Project

July 2018

Port Wakefield Road, Waterloo Corner – night works

As part of the Northern Connector Project night works will be undertaken on Port Wakefield Road for the construction of the Waterloo Corner Interchange.

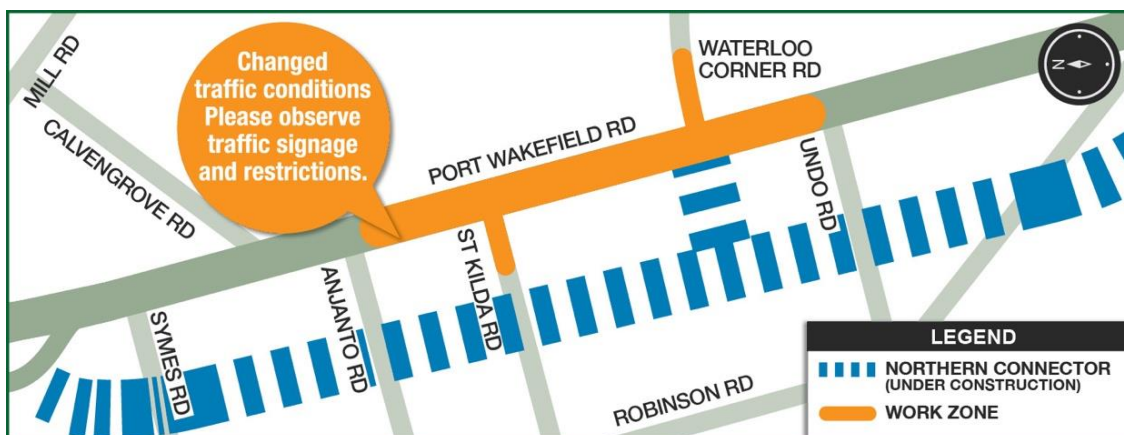

Location: Port Wakefield Road at Waterloo Corner with north and southbound traffic under traffic management between St Kilda and Undo Roads (refer to map).

Commencing: Wednesday 1 August 2018 for approximately 7 nights, weather permitting. Please note, works will not be undertaken on Friday and Saturday nights.

Work hours: Between 7pm and 5am.

Activities: Trenching for the installation of traffic signal conduits.

Traffic management: Northbound lanes between Waterloo Corner Road and St. Kilda Road will be closed. Traffic will be reduced to a single lane in each direction, utilising the Port Wakefield Road southbound carriageway under managed traffic conditions. Speed restrictions will be in place. Please observe signage.

Please note this is a part of an increasing program of works in this area to construct the Waterloo Corner Interchange.

More information: Further changes to traffic will be required in this area over the coming months, with increased frequency. Contact the Project Team on 1300 916 221 or northernconnector@lendlease.com if you would like to sign up for regular project updates.

Thank you for your patience while these important works are undertaken.
